HIGHLIGHTS OF THE FIRST QUARTER ECONOMIC AND BUDGETARY REVIEW: 2010/2011

1. **Recent Economic Developments**

Economic recovery continued into the second quarter of 2010 with real GDP growing by 5.4 percent up from 0.9 percent in the corresponding quarter of 2009. The high growth was mainly driven by strong performance in the agriculture, construction, manufacturing and financial sectors. This expansion was realized in an environment of lower interest rates, low inflation, increased production of cheaper electricity and better prospects in the agricultural sector.

2. **The Overall Fiscal Balance**

The cumulative overall fiscal balance, on a commitment basis (excluding grants) registered a deficit of Kshs 22.3 billion (equivalent to 0.8 percent of GDP) through end-September 2010 compared with a deficit of Kshs. 25.4 billion (equivalent to 1.1 percent of GDP) for a similar period in 2009.

3. **Total Revenue Collection**

The Central Government's cumulative revenue collection to end-September 2010 was Kshs 132.9 billion (equivalent to 4.9 percent of GDP) against a target of Kshs 154.9 billion (equivalent to 5.7 percent of GDP). This performance was below the programme target by Kshs 22.1 billion.

4. **Government Expenditure and Net Lending**

The Central Government expenditure and net lending for the period ending 30th September 2010 amounted to Kshs 155.2 billion, which was KShs.59.0 billion below the target of KShs.214.1 billion. This arose mainly from lower-than-targeted expenditure on operations and maintenance as well as non-capture of some district expenditures.

5. **Guaranteed Loans**

Cumulative scheduled principal payments of guaranteed debts for Parastatals with liquidity problems amounted to Kshs 161.6 million as at end-September 2010. The amount was being processed for payments by the time of preparing this report.

6. **External Financing**

External financing in the year to September 2010 was a net borrowing of Kshs 1.9 billion compared to a net repayment of Kshs 2.9 billion in a similar period in FY 2009/10.

7. Net Domestic Borrowing

Net domestic borrowing stood at Kshs 30.2 billion (equivalent to 1.1 percent of GDP) in the first quarter of FY 2010/11. This was below the programme target borrowing of Kshs 50.8 billion (equivalent to 1.9 percent of GDP).

8. Total Domestic Debt

The total domestic debt stock increased by 6.7% from Kshs 660.3 billion at end-June 2010 to Kshs. 704.7 billion by the end of September 2010.

9. External Debt

The total external debt rose from Kshs. 565.5 billion at end-June 2010 to Kshs. 589.7 billion by 30th September 2010. The debt stock comprised of 60.5 percent, 35.8 percent and 3.7 percent for multilateral, bilateral and export credit, respectively.

1.0 RECENT ECONOMIC DEVELOPMENTS

1.1 Economic Growth

1. Economic recovery continued into the second quarter of 2010 with real GDP growing by 5.4 percent up from 0.9 percent in the corresponding quarter of 2009 (Chart 1). The high growth was mainly driven by strong performance in the agriculture, construction, manufacturing and financial sectors. This expansion was realized in an environment of lower interest rates and inflation, increased production of cheaper electricity and better prospects in the agricultural sector.

Source: Data from KNBS.

2. Recovery of the agricultural sector continued into the second quarter of 2010 with the sector expanding by 5.8 percent compared to a contraction of 4.4 percent in the corresponding quarter of 2009. The expansion was supported by improved and well spread rains that started in late 2009 and continued into 2010. Most of the key indicators such as maize, beans, potatoes, tea, and milk showed significant increases, which more than offset the reduced output of horticultural produce, coffee and sugar cane.

3. Performance of the manufacturing sector turned around to record a robust growth of 6.8 per cent compared to a contraction of 0.4 per cent during the same quarter in 2009. Increased growth was due to a strong performance of non food manufactures, especially cement production, galvanized iron sheet, laundry soap and processed, which accounted for over 90 percent of the growth.

4. Hotels and restaurants sector maintained a positive growth of 1.0 percent against a backdrop of cancellation of travels due to volcanic eruption experienced in Iceland during the month of April. Total bed occupancy, one of the key indicators, increased from 1.33 million to 1.44 million during the quarter.

RECENT ECONOMIC DEVELOPMENTS

5. Growth of the transport and communications sector rose from a contraction of 2.8 to 2.1 percent mainly supported by expansions in air transport, land transport and communication services. Communication services continue to be the main driving force in the sector.
6. Electricity and water supply recorded a robust growth of 14.4 percent up from 1.5 percent in the first quarter of 2010 and second quarter of 2009. Favourable weather contributed to the positive development with the hydro power expanding by 38.0 percent and geo-thermal generation expanding by 13.0 percent while thermal generation declined by 2 percent. Meanwhile, electricity consumption increased to 2,510 million KWh in the second quarter of 2010 from 1,365 million KWh over a similar period in 2009.
7. Financial intermediation sector continued to exhibit strong growth for the fourth consecutive quarter in a row. The sector expanded by 16 percent during second quarter and accounted for 11.7 percent to the overall growth. The construction sector also maintained a robust performance and posted a growth of 18.0 percent.

1.2 Inflation

8. The overall 12-month inflation at 3.2 percent in September 2010 was more or less the same level as in August 2010. Meanwhile, the average annual inflation declined during the month by 0.3 percent; from 4.7 percent in August 2010 to 4.4 percent in September 2010. Despite the marginal net decline, there were significant upward movements in all baskets except the communication and recreation baskets. The restaurants and hotels and the health baskets experienced increases of 1.7 percent and 1.0 percent, respectively, between August and September 2010. The prices of seasonal food items such as tomatoes, maize flour and maize grain fell during the month. The communications index also went down by 1.1 percent during the month as a result of the price wars among the service providers in August 2010 (Chart 2).

Source: Data from KNBS.

RECENT ECONOMIC DEVELOPMENTS

1.3 Balance of Payments

9. Kenya's overall balance of payments recorded a surplus of US\$ 665 million in the year to July 2010, a turnaround from a deficit of US\$ 420 million over a similar period in 2009. This was on account of a narrowing of the current account deficit and improved surplus in the capital and financial account. Reflecting increased surplus in the services account, which more than offset deterioration in the trade balance, the current account deficit decreased from US\$ 2,241 million to US\$ 1,752 million in the year to July 2010. Similarly, the capital and financial account surplus rose by 32.7 percent to US\$ 2,417 million from US\$ 1,822 million in 2009 on account of increased private medium and long term capital and net inflows to commercial banks (Table 1a).

Table 1a: Balance of Payments Developments (US \$ Million)

	2007/08	2008/09	2009/10	2009	2010	%

Source: Data from CBK.

1.4 Foreign Exchange Reserves

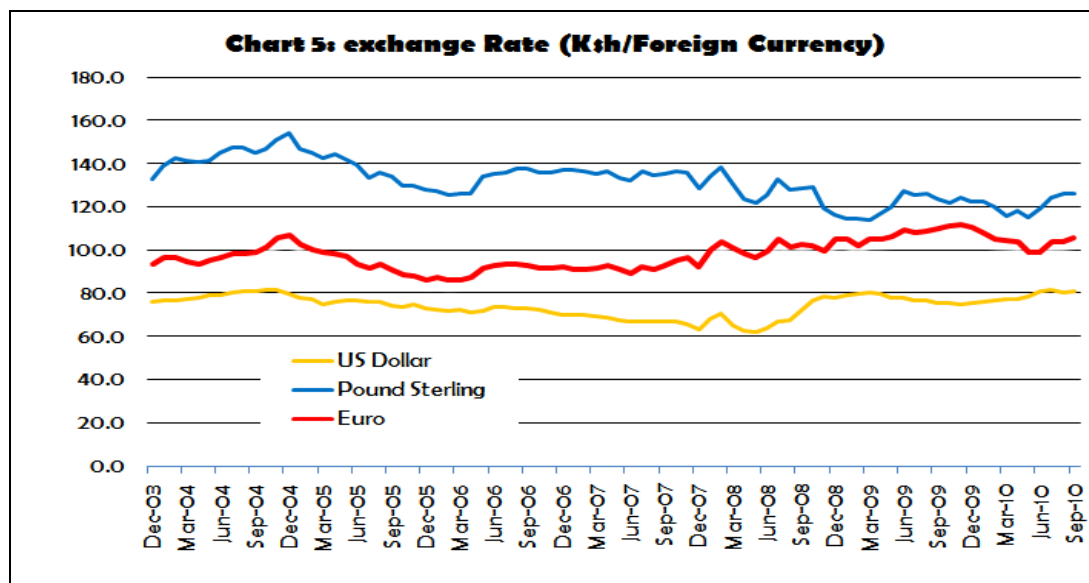

10. Reflecting developments in the balance of payments, official foreign exchange reserves held by the Central Bank of Kenya rose to US\$ 3.9 billion (3.8 months of import cover) by end-July 2010, from US\$ 3.2 billion (3.3 months of import cover) at end-July 2009. This level of official foreign exchange reserves (in terms of previous three years of import coverage) was within the 4 months statutory minimum stipulated in the CBK Act (Chart 4).

Source: Data from CBK.

1.5 Exchange Rates

11. The Kenya Shilling remained stable though with a tendency to depreciate against most of the major international currencies during the month of September 2010 (Chart 5). Against the US dollar, the shilling weakened marginally to trade at an average of Kshs. 80.9 per dollar in September compared to Kshs. 80.4 per dollar in August 2010. Similarly, the shilling lost to the Euro to exchange at Kshs. 105.6 in September 2010 compared to Kshs.103.8 in August 2010. However, the shilling stabilized against the Sterling Pound to trade at an average of Kshs. 125.9 in August and September. Against the regional currencies, the shilling recorded mixed performances. The shilling lost to the South African Rand and Tanzanian shilling but gained against the Ugandan shilling.

Source: Data from CBK.

1.6 Money and Credit

12. Growth in broad money supply, M3, accelerated to 26.0 percent in the twelve months to September 2010, up from 14.8 percent over a similar period in 2009. The expansion in money supply reflected growth in both Net Foreign Assets (NFA) and Net Domestic Assets (NDA) of the banking sector following a stronger expansion in domestic credit and improvement in the balance of payments position. Reflecting improved economic activity, expansion of credit to the private sector rose sharply to 22.9 percent compared to 10.6 percent in 2009 (Chart 6).

Source: Data from CBK.

1.7 Interest Rates

13. As shown in Chart 7, the downward trend in interest rates continued into the second half of 2010, though with indications of rising at the end of third quarter. After declining to 1.6 percent in July from 3.0 percent in June 2010, the average interest rate on the 91-day Treasury Bill rose to 1.8 percent in August 2010 and further to 2.0 percent in September 2010. Similarly, the 182-day Treasury Bill rate dropped from 2.9 percent in June 2010 to 1.7 percent in July 2010 but rose to 2.1 percent in September 2010. The increase in Treasury bill rates partly reflect increased government borrowing during the period.

14. In the short-end of the money market, the average interbank rate rose from 1.2 percent in June 2010 to 1.7 percent by end-August 2010 but fell to 1.2 percent in September 2010. Commercial bank rates also fell with the average lending rate declining from 14.4 percent in June 2010 to 14.0 percent, while the average deposit rate dropped from 4.5 percent to 3.5 percent in September 2010. As a result of a larger decrease in the average deposit rate, the spread between the average lending and deposit rate rose from 9.9 percent in June 2010 to 10.5 percent in September 2010. This reflects continued structural rigidities in the banking sector.

Source: Data from CBK.

1.8 Capital Markets

15. The equities market remained buoyant during the third quarter of 2010. The NSE Index rose from 4,339 points in June to 4,455 points in August and further to 4,630 points in September 2010. Similarly, market capitalization increased from KSh 1.10 trillion in June 2010 to KSh 1.17 trillion in September (chart 8). The strengthening of the stock market indicators reflects improved profitability of key companies listed at the NSE and improvement in investor confidence in capital market, in part due to the bold reform measures taken by the Government to improve transparency and accountability in the operations of the NSE as well as steps to strengthen the supervisory capacity of the Capital Markets Authority (CMA).

Source: Data from NSE.

2.0 FISCAL DEVELOPMENTS

2.1 Fiscal Outturn

16. The overall fiscal balance (on a commitment basis and excluding grants), in the first quarter ending 30th September 2010 recorded a deficit of Kshs. 22.3 billion (equivalent to 0.8 percent of Gross Domestic Product (GDP)), against a targeted deficit of Kshs. 59.2 billion (equivalent to 2.2 percent of GDP). Over the same period in the FY 2009/10, the fiscal deficit stood at Kshs. 25.4 billion (equivalent to 1.1 percent of GDP). While on a commitment basis including grants, it recorded a deficit of Kshs.21.1 billion (equivalent to 0.78 percent of GDP), against a targeted deficit of Kshs.55.2 billion (equivalent to 2.0 percent of GDP) (*Chart 9 and Table 1*).

2.2 Revenue

17. Cumulative Government revenue collection for the first quarter of the FY 2010/11 was below the target by Kshs 22.1 billion. Ordinary revenue collection amounted to Kshs 129.4 billion against a target of Kshs 137.7 billion, resulting in an under collection of Kshs 8.2 billion. The collection of A-I-A stood at ksh 3.4 billion against a target of 17.3 billion reflecting an under collection of ksh 13.9 billion (Actual AIA collection from the Universities had not been reported by the time of producing this document). (*Table 2 and Chart 10*).

1/ includes aviation, land, forest, mining, rent of buildings, trade licenses, fines and forfeitures, other taxes, reimbursements and other fund contributions, and miscellaneous revenue.

2/ includes receipts from Road Maintenance Levy Fund

18. As a proportion of GDP, total cumulative revenue and grants in the period under review was 4.9 percent compared to 5.4 percent in the corresponding period of the FY 2009/10.

External grants amounted to Kshs 1.2 billion against a target of Kshs 4.0 billion, representing an under performance of Kshs 2.9 billion.

Source: Ministry of Finance

2.3 Expenditure

19. The total government expenditure and net lending, for the period under review, amounted to Kshs 155.2 billion, against a target of Kshs 214.1 billion. The shortfall of Kshs 59.0 billion was attributed to lower absorption recorded under both Recurrent and Development expenditures by the line ministries. *(Table 3 and Chart 11)*. Recurrent expenditure as reported, amounted to Kshs 119.5 billion, against a target of Kshs 151.8 billion. Lower-than-targeted recurrent expenditures were recorded in the operations and maintenance /other expenditures which accounted for Kshs 27.4 billion. This was due to understated district level expenditures and AIA collections whose reports had not been received by the time of producing this report.

20. Similarly, scheduled foreign interest payments amounted to Kshs 1.6 billion, compared to Kshs 1.5 billion in FY 2009/10. The domestic interest payment totalled Kshs 14.5 billion, which was higher than Kshs 13.2 billion paid in the corresponding period of the previous financial year. This was mainly due to higher borrowing during the period under review. *(Table 3 and Chart 11)*.

21. The total cumulative ministerial expenditures stood at Kshs. 122.4 billion against a target of kshs 148.8 billion. Recurrent expenditures were Kshs. 92.7 billion against a target of Kshs. 108.0 billion, while development expenditures stood at Kshs. 29.7 billion against a target of Kshs. 40.8 billion. On aggregate, both recurrent and development expenditures were below the respective targets. Among the ministries that had large overall under expenditures were Ministries of Roads, Finance and Higher Education, Science and Technology amounting to Kshs. 9.1 billion, Kshs. 3.9 billion and Kshs. 2.1 billion, respectively. The lower than expected expenditures are mainly attributed to non capture of the district expenditures and under reporting by ministries. Over-spending by line ministries on the other hand mainly arose from the use of A-I-As collected by ministries and commitments that remained unsettled at the end of the period under review.

22. The Ministries of Education; Higher Education, Science and Technology; Medical Services and Public Health and Sanitation accounted for 50.7 percent of total recurrent expenditure. The Ministry of State for Provincial Administration & Internal Security accounted for a significant percentage of 10.1 percent of total recurrent expenditure. The Ministries of Nairobi Metropolitan Development, Housing, Regional Development Authorities, Development of Northern Kenya and Other Arid Areas, and Public Works were some of the ministries, which accounted for the least share of the total recurrent expenditure in FY 2010/11.

23. Analysis on total development expenditure outlay indicates that the Ministry of Energy incurred the largest share which was also above the targeted expenditure, followed by the Ministries of Water and Irrigation, Planning, National Development & V2030, and Roads accounting for 34.1 percent, 13.3 percent, 12.7 percent and 12.1 percent of the total development expenditure, respectively. Details of the various Ministerial and Departmental expenditures for the period under review are shown in *Table 4*.

2.3.1 Guaranteed Loans to Parastatals

24. Scheduled payments of guaranteed debts for Parastatals with liquidity problems in the first quarter of FY 2010/11 amounted to Kshs 195.2 million, which was still being processed for payment as at the end of the quarter. This amount includes Kshs. 161.6 million of Principal and Kshs 33.6 million of interest (*Table 6*).

2.4 Financing the Budget Deficit

2.4.1 External Financing

25. The cumulative external financing as at end-September 2010 represented a net borrowing of Kshs 1.9 billion compared to a net repayment of Kshs 2.9 billion in the FY 2009/10. Total disbursements (inflows) including Appropriations-in-Aid amounted to Kshs 8.1 billion against a target of ksh 10.3 billion. This amount included Kshs 4.2 billion project cash loans and Kshs 3.9 billion project loans (A.I.A). External repayments (outflows) of principal amounted to Kshs 6.2 billion against a target of Kshs 5.9 billion. A total of Kshs 3.0 billion was paid to multilateral creditors while Kshs 3.2 billion was paid to bilateral creditors which include Kshs 1.6 billion arrears for the FY 2009/10 paid in the quarter under review. (*Table 7*).

2.4.2 Domestic Financing

26. In the first quarter of the FY 2010/11, net domestic borrowing was Kshs 30.2 billion compared with Kshs 39.7 billion in the FY 2009/10. This comprised of a net borrowing of Kshs 10.1 billion from Commercial Banks, Kshs 26.1 billion from Non-Banking Financial Institutions, Kshs 1.5 billion from Non-Residents and a net repayment of Kshs 7.5 billion to Central Bank, (*table 8 and chart 12*).

Source: Data from CBK.

27. The stock of Treasury Bills held by Commercial Banks recorded a net decrease of Kshs 15.0 billion by the end of September 2010. However, the stock of Treasury Bills held by the Central Bank, Non-Banking Financial Institutions, and Non-Residents recorded a net increase of Kshs 2.0 million, Kshs 5.2 billion and Kshs 1.5 billion, respectively. Meanwhile, the stock of Fixed Rate Bonds held by Commercial Banks and Non-Banking Financial Institutions recorded a net increase of Kshs 14.4 billion and Kshs 7.2 billion, respectively. (*Table 8*).

3.2 Domestic Debt

29. The stock of domestic debt increased from Kshs 660.3 billion in June 2010 to Kshs 704.7 billion in September 2010, reflecting a net increase of Kshs 44.4 billion (*Table 10*). The stock of Treasury Bills held by Non-Banking Financial Institution and Non Residents recorded an increase from Kshs 21.5 billion in June 2010 to Kshs 26.3 billion in September 2010 an increase of 4.8 billion, while the stock of Treasury Bills held by Commercial Banks decreased by 14.9 billion in the same period. On the other hand, the stock of Treasury Bonds, Floating, Fixed Rate, Special and Zero coupon Bonds, increased from Kshs 394.1 billion in June 2010 to Kshs 413.8 billion in September 2010 (*chart 13*).

FISCAL DEVELOPMENTS

3.3 External Public Debt

30. In dollar terms external public debt decreased marginally from US\$ 6.90 billion in June 2010 to US\$ 6.42 billion as at end of September 2010. This is attributed to net principal repayments. (*Table 11 and Chart 14*).

3.3.1 External Debt Service

31. At the end of September 2010, the total cumulative actual debt service payments to external agencies amounted to Kshs 8.6 billion (include Kshs 1.6 bn arrears for the FY 2009/10 paid in the First quarter FY 2010/11). This comprised of Kshs 7.0 billion (81.2 percent) and Kshs 1.6 billion (18.8 percent) of principal and interest, respectively. Principal amount paid comprised of 45.4 percent and 54.6 percent to bilateral and multilateral organizations, respectively. (*Table 12 and chart 15*).

4.0 CORE POVERTY PROGRAMMES (CPP)

32. The Core Poverty Projects/Programmes (CPP) are programmes/projects that impact positively on the lives of the poor by: (i) increasing their incomes or improving their quality of life or enhancing security; (ii) empowering them or improving governance; and (iii) promoting equity and equality in our society. These programmes are given high priority by the Government and are cushioned against budget cuts to ensure that the goals are achieved as planned. The overall expenditure on these programmes for the ministries that had reported some expenditure by the end of first quarter of FY 2010/11 was Kshs 6.6 billion, equivalent to 12.8 percent of the total budget allocation to CPP.

4.1 Recurrent Expenditures

33. The total recurrent expenditure (non-wage) of the Core poverty programmes was Ksh 4.5 billion during the first quarter; this was equivalent to 13.1 percent of the total recurrent budget allocation on programmes that had reported some expenditures as at the end of the period under review. Table 13 below shows a summary of the ministerial recurrent expenditures on CPP.

Table 13: Recurrent Expenditures 2010/11 (Non-Wage) Kshs.

4.2 Development Expenditures

34. Under the development budget, the total expenditures on CPP as at the end of the first quarter amounted to Ksh 2.1 billion, equivalent to 12.0 percent of the total development CPP allocation for the ministries that had reported some expenditures as at the end of the period under review. Ministries with low expenditures were due to non-captures of the expenditures from the districts. Table 14 below gives summary details of the ministerial development CPP expenditures.

STATEMENT BY HON. UHURU KENYATTA, MP, DEPUTY PRIME MINISTER AND MINISTER FOR FINANCE ON THE OCCASION OF SIGNING OF THE ADB FINANCING AGREEMENT FOR THE INTERCONNECTION OF ELECTRIC GRIDS OF THE NILE EQUATORIAL LAKES COUNTRIES (NELSAP) PROJECT ON 20TH SEPTEMBER, 2010 AT 10.00 AM, TREASURY BUILDING

MRS. DOMINA BUZINGO, RESIDENT REPRESENTATIVE, ADB

MEMBERS OF THE ADB DELEGATION

PERMANENT SECRETARY/TREASURY

LADIES AND GENTLEMAN

1. Let me take this early opportunity to welcome you all to the Treasury. I wish to especially thank the African Development Bank for the support to our development agenda.
2. Our partnership with the Bank has continued to grow stronger especially following the establishment of the Kenya Country Office. Indeed, the Nairobi Office has effectively facilitated communication between us and the Bank's management in its temporary Headquarters in Tunis.
3. Ladies and Gentlemen, today marks yet another important occasion of the signing with African Development Bank, a loan agreement for Units of Account Thirty Nine Million Nine Hundred and Seventy (UA 39.97 million), which is equivalent to Ksh.3.97 billion. This is part of a large project in the energy sector involving the five Nile Equatorial Lakes Countries, namely: Democratic Republic of Congo, Rwanda, Burundi, Uganda, and Kenya. The total cost of the entire project is 160.2million UA for the five countries.
4. The project is, therefore, very important to the region as it will provide the basic infrastructure required for the promotion of cooperation and integration of energy grids of the five beneficiary countries, increase cross – border sharing of electric energy and facilitate the development of low cost energy resources. In addition, the project lays the necessary groundwork for the creation of a regional electricity market that would include both the Nile Basin Development Programme and the East African Energy Pool (EAEP).
5. The major component of the project is the construction and upgrading of 769 kms of 220kv and 110kv power lines as well as the construction and reinforcement of 17 transformer stations to interconnect the grids of the five Nile Equatorial Lakes Countries. In addition to the Kenya – Uganda interconnection there will be Uganda- Rwanda interconnection, upgrading of the Burundi, Democratic Republic of Congo and the Rwanda inter connection lines. The loan will also cover training and operational costs.
6. Ladies and Gentlemen, I am informed that the potential for hydropower from DRC at Hinga dam is more than 40,000 MW which is enough clean power for the whole region. The construction of the power

lines and substations is, therefore, a step in the right direction as the region prepares to tap its power potential.

7. Ladies and Gentlemen, turning to the Kenyan component of this project, the loan amount as I earlier indicated is Units of Account 39.97 million or about Ksh 3.97 billion, which will finance the section of the Kenya- Uganda interconnection line. This component is categorized as LOT 1 and it consists of the construction of a 220kv double circuit transmission line from the border with Uganda to the substation at Lessos. As part of this project, Lessos substation will be expanded with additional transformers and accompanying gear.
8. The importance of this project cannot, therefore, be overemphasized. At the national level, it will benefit the local communities, enterprises and trading entities, private and government institutions through increased access to reliable and affordable electricity for domestic, industrial and commercial use. The access to electricity particularly in the rural areas will facilitate the achievements of national objectives and programmes in various sectors including education, health, communication, and water to mention but a few. The project will certainly contribute to our economic growth and attainment of other Vision 2030 objectives.
9. Madam Buzingo, ADB's contribution towards the realization of this project is laudable and a clear testimony of the Bank's commitment to the development of the region. Apart from the financial support, the Bank has played a leading role in the mobilization of the other donors to support the project. Indeed, these efforts are not only in the energy sector but in the other sectors as well. In the energy sector the Bank has also financed the construction of Mombasa-Nairobi power transmission line and the upgrading of Mariakani substation; while other national transmission lines are under preparation.
10. Other sectors benefiting from ADB's support include roads, water sanitation, health and institutional reforms. These are sectors that are critical to the growth of our economy and achievement of Vision 2030 objectives.
11. Ladies and gentlemen, the Kenyan people made a historical milestone last August by voting for the new Constitution. The Government is committed to the implementation of the new constitution and will spare no efforts towards the achievement of this goal. We are, however, aware that the implementation of the institutions identified in the constitution will require substantial financial resources
12. While we have set aside some resources for that purpose, we have no doubt it will not be sufficient given other development obligations we have to also fulfill. We therefore remain hopeful that we can count on the support of all our friends like the ADB, towards financing the implementation of the Institutions set out in this document. We will soon get back to our partners on this matter when we conclude the financial estimates for implementation of the Constitution.
13. In conclusion, let me once again reiterate our appreciation of the financial support we, as a country, have continued to receive from the African Development Bank.

Thank you.
