1. INTRODUCTION

The Ministry of Education, Science and Technology (**MOEST**) is mandated to provide efficient delivery of technological and other educational services.

In Kenya, university student enrolment has continually increased over the years, putting pressure on university facilities. The Government of Kenya has pledged to finance construction of the required lecture theatres to address the increased numbers. However, provision of student hostels remain the responsibility of the universities. While establishment of private hostels off-campus was initially perceived as a solution to accommodation of the students, the real estate developers have taken advantage of the high demand by developing substandard accommodation for students. To address this challenge, universities are seeking private investors to partner with in the development of student hostels to reduce student accommodation shortage and eliminate the exploitation of students.

The Government of Kenya (**GoK**) has made infrastructure development through Public Private Partnerships (**PPPs**) a priority as a mechanism that can help in addressing the major infrastructure gaps in the country. The Public Private Partnerships Unit (**PPPU**) has been tasked with the responsibility to oversee the implementation of the GoK PPP Programme as set out in the National PPP Policy.

The PPPU, in consultation with five public universities (who serve as the Contracting Authorities (CAs)), is currently engaged on a project aiming to develop, operate and maintain five separate student hostels for the following institutions:

- Egerton University;
- University of Embu (UoEm);
- Kenya Technical Trainers College (KTTC);
- Moi University (MU); and
- South-Eastern Kenya University (SEKU).

Following the successful completion of a detailed feasibility study, MU and the PPPU have decided to proceed to the procurement phase of the project. Separate procurement phases will be conducted for each of the above-named institutions. A brief description of the Project is contained in the Project Information Memorandum (**PIM**) available at MU's website www.mu.ac.ke.

Brief particulars of the Project are as follows:

Main Campus

Location: Approximately 40km south of Eldoret, off the Eldoret – Nakuru highway

Available land size: Approximately 218,139.46m²

Bed space capacity: 11,000 with a mix of 4-student, 2-student and single rooms

Other amenities: Dining halls and commercial facilities

Law Campus

Location: Approximately 10km from Eldoret, along the Eldoret – Nakuru highway

Available land size: Approximately 78,139.46m²

Bed space capacity: 4,000 with a mix of 4-student, 2-student and single rooms

Other amenities: student study common rooms, facilities management offices per hostel block, dining halls and kitchenettes
